1 Introduction

A short summary to make the rest sound interesting and important.

1.1 Math

In 1902, Einstein created this equation:

$$E = mc^2 \tag{1}$$

Newton came up with this one:

$$\sum F = ma \tag{2}$$

$$A = \frac{\pi r^2}{2} \tag{3}$$
$$A = \frac{2}{2}\pi r^2$$
